

AI Demystified:

How to use it to enhance
architecture process

What is AI?

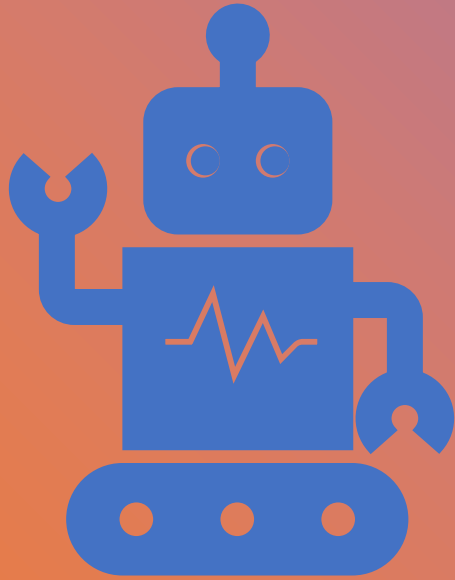

Teaching computers to think and make decisions like humans do.

Predicative VS Generative

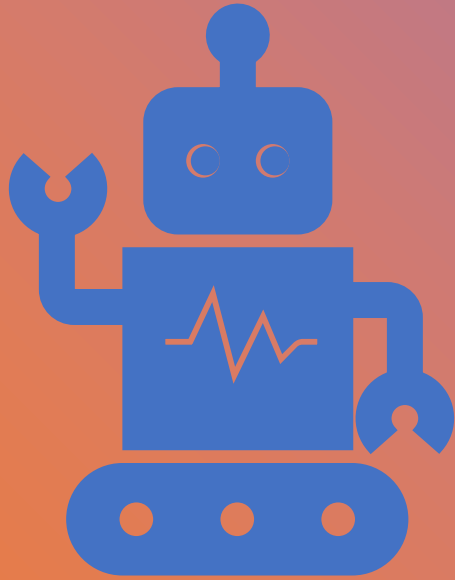

Educated guess

New content

Demo: ChatGPT

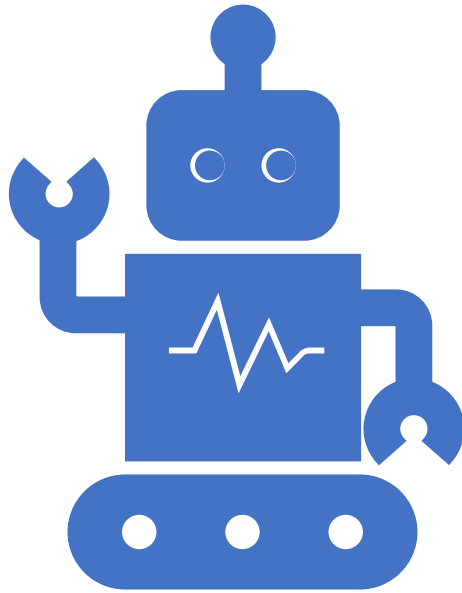

1. Summarization
2. Idea Generation
3. Role Playing
4. Prompt Engineering
5. Multimodal

+ .

Demo: Firefly

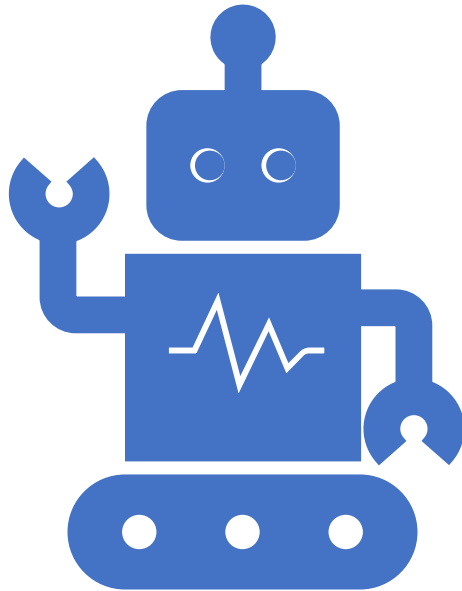

1. Text to Image
2. Image Editing
3. Explore Design Ideas

Challenges

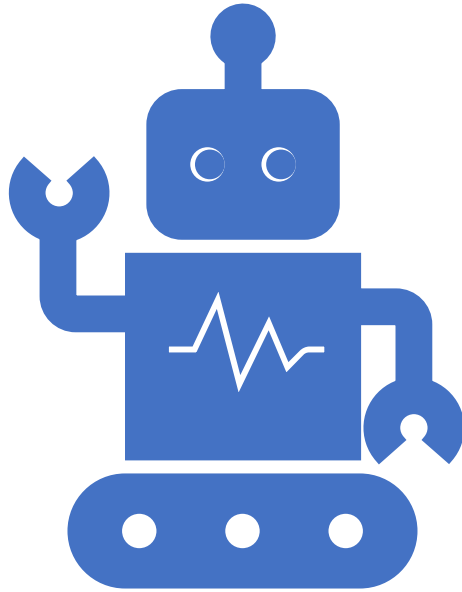

1. Hallucination
2. Data Protection

Brain Storming: Use Cases

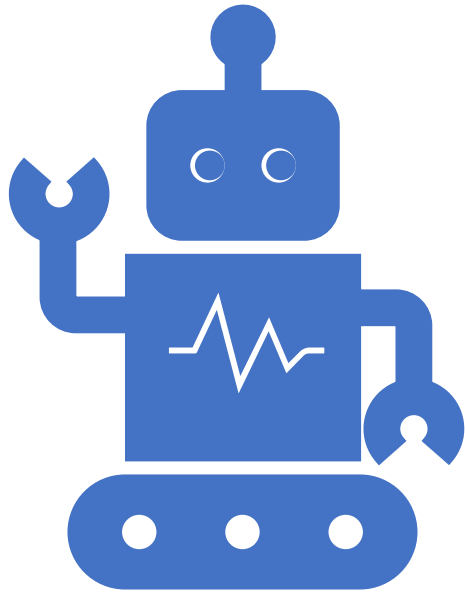

1. Service Phone
2. Idea Validation
3. Technical Writer
4. Meeting Summarization
5. AI Agent.....

What is architecture after AI?

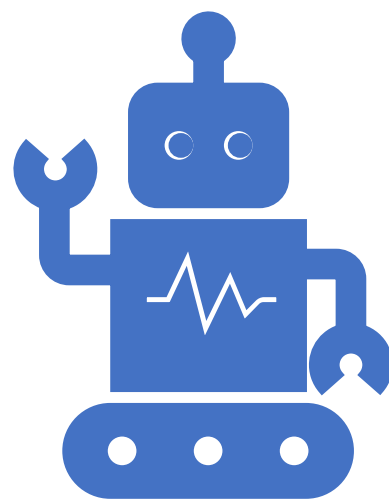

1. Customization
2. Energy Efficient
3. Better Communication
4. Construction Automation
5. Smart City.....

Current Progress

1. Door List
2. PDF data fetching
